The Holy Machine is intelligent, well thought out and very well written. Beckett is pretty damning of the madness that religion can lead to, but balances this extreme example of where religion can go against the difficulties of using science as an ethical code. The result is thought-provoking without ever preaching.

The Holy Machine Amazon co uk Chris Beckett

The events take a real turn for the worse and George continues to live his life in the Outlands until he hears of the Holy Machine - a sort of myth of a holy robot travelling around the world. Great book that shows how our fantasies of life can be sadly miss-directed.
